Terminal Disclaimer

1. The terminal disclaimer filed on 10/27/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent Application 10/632,632 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1-21 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding Claims 1-2, 10-12, and 21 Pinson does not teach the claimed invention including a structure at least partially formed of a dielectric material defining at least one cavity, or at least one waveguide cavity at least partially formed of a dielectric material and contained within a waveguide (Claims 13-20).

Also, regarding claim 13, the double patenting rejection using co-pending application 10/421,305 is overcome by the amendment since the co-pending claims do not teach the claimed invention including at least one cavity at least partially formed of a dielectric material and contained in a waveguide. Note that Applicant did not submit a terminal disclaimer for the co-pending application 10/421,305, for which the rejection is now overcome and the claim is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen E. Jones whose telephone number is 571-272-1762. The examiner can normally be reached on Monday through Friday from 8 AM to 4 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert J. Pascal can be reached on 571-272-1769. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
